**Oggetto: Notizie in breve.**

**Tributi – Legge annuale per il mercato e la concorrenza 2023 – Vigilanza sui contratti assicurativi contro i danni catastrofali** – È stata pubblicata sulla gazzetta ufficiale la legge sulla concorrenza 2023 che, in particolare, ha previsto che l'IVASS (Istituto per la vigilanza sulle assicurazioni) gestisca, anche attraverso la piattaforma informatica già disponibile per la comparazione delle offerte RC auto, un portale che consenta di comparare in modo trasparente i contratti assicurativi offerti dalle compagnie assicurative al fine di permettere alle imprese soggette all'obbligo di stipula dei contratti assicurativi a copertura dei danni ai beni direttamente cagionati da calamità naturali ed eventi catastrofali di compiere una scelta consapevole e informata; come è noto, la *Legge di Bilancio 2024* (art.1 c.101-111 della L.n.213/2023) ha infatti previsto che tutte le imprese con sede legale o stabile organizzazione in Italia debbano stipulare contratti assicurativi a copertura dei danni a terreni e fabbricati, impianti e macchinari, nonché attrezzature industriali e commerciali causati da eventi catastrofali che si verifichino sul territorio nazionale (sismi, alluvioni, frane, inondazioni, esondazioni). Si segnala che, non essendo stato ancora emanato il decreto interministeriale MEF-MIMIT che renderà operativo tale obbligo il Governo con la recente approvazione del decreto di proroghe di termini relative a varie misure (di cui si attende la pubblicazione sulla gazzetta ufficiale) ha prorogato il termine di tale obbligo al 31 marzo 2025 – Art.22 della Legge 16.12.2024, n.193, su G.U. n.295 del 17.12.2024.

**Trasporti internazionali – Polonia – Obbligo di registrazione al sistema SENT dal 2025** – Dall'1 gennaio 2025 le imprese di autotrasporto e di trasporto ferroviario comunitarie nonché dello Spazio economico europeo dovranno registrare le operazioni transfrontaliere relative ad alcune categorie di merci effettuate in territorio polacco sul sistema denominato *SENT* (Sistema di monitoraggio elettronico del trasporto); le suddette imprese dovranno registrarsi sulla piattaforma PUESC (<https://puesc.gov.pl/> con una versione di prova attualmente disponibile all'indirizzo <https://test.puesc.gov.pl/>) e completare la propria registrazione al sistema *SENT* (<https://puesc.gov.pl/uslugi/przewoz-towarow-objety-monitorowaniem-sent>) prima dell'ingresso delle merci nel territorio polacco; sarà possibile inviare i dettagli del trasporto fino a dieci giorni prima delle relative operazioni; la mancata registrazione al sistema *SENT* e la mancata o impropria dichiarazione della tipologia di trasporto effettuata comporterà l'applicazione di sanzioni pecuniarie ed eventuale fermo del veicolo.

**Autotrasporto – Piano Neve 2024-2025** – È stato pubblicato ed è operativo il Piano di Viabilità Italia per gestire in modo efficace la viabilità nella stagione invernale e nell'eventualità di emergenze causate da precipitazioni nevose o ghiaccio; all'indirizzo <https://www.poliziadistato.it/articolo/1815cb58d622d6ac985858152> sono riportati le codificazioni dell'intensità delle precipitazioni nevose, la mappatura aggiornata delle aree

e dei nodi della rete stradale e autostradale più a rischio di precipitazioni, l'elenco dei tratti stradali e autostradali in cui vige l'obbligo di circolare con pneumatici invernali o di avere a bordo le catene da neve, le procedure da osservare in caso di pioggia ghiacciata (*freezing rain*), la ricognizione delle tratte autostradali e delle aree di stoccaggio (interne o esterne all'autostrada) per il fermo temporaneo dei mezzi pesanti, nonché ogni riferimento per rimanere costantemente aggiornati sulle condizioni di strade e autostrade e della relativa percorribilità.
